Ribbon Selector & Quick Reference Stock Guide

Two very useful sales tools available from TTS

The TTS Ribbon Selector

The TTS ribbon selector is a very useful and unique tool which helps you identify the ribbon that you need. Whether you search by printer type or ribbon grade, finding the most suitable ribbon could not be quicker or easier. And with thanks to your Business Development Manager, your price list will be automatically built in, so you are able see your buy price and your selling price (just add in your margin) all in one place.
