

Introducing the new ZED-WAX ribbon grade

THE NEW LOW COST PREMIUM PERFORMANCE WAX RIBBON

ZED-WAX the new general purpose wax which is available at an extremely competitive price. ZED-WAX is a general purpose wax for use in all types of general labelling applications. ZED-WAX offers great all round print performance on paper based substrates including coated and non coated paper tags and labels. The ink provides a black dense print suitable for the creation of barcodes, variable data, logos and graphics.

KEYFEATURES

- Low energy printing
- High print speeds
- For use in general purpose labelling
- Manufactured with 'Ultracoat Technology'
- Extremely competitively priced
- Black dense prints
- Available from stock

The extremely competitive price of ZED-WAX now allows for a lower cost alternative to direct thermal printing. The combination of printing with ZED-WAX and a standard paper label will offer cost savings compared to printing with direct thermal paper. In addition to the cost savings on the media, Ultrawax will also help extend the life and the performance of the thermal printhead.

ZED-WAX is manufactured using the latest 'Ultracoat Technology'. This technology uses the latest innovative inks and ink release layers to ensure that the lowest possible energy is required for ink transfer. It also incorporates the latest black coat technology ensuring excellent printhead protection.
